Cells count distinct papers; papers can appear in several cells or panels.

0 = no source coded in this subset. Hatched cell: adverse; m: mixed task outcomes.

Selected sources: 5/6 include physical evaluation; 1 component ablation; 1 paired rank validation.

WM1 latent dynamics · WM2 generative video · WM3 latent prediction

WM4 physical state · WM5 learned environments · WM6 world–action models

This selected audit does not estimate evidence prevalence across the 144-paper corpus.
