Multimodal fusion
A Action tokens
Discrete bins or compressed action tokens; de-tokenize to actions.
RT-2, OpenVLA; FAST tokenizer
B Continuous actions
Regression, diffusion, or flow matching produces continuous actions.
OpenVLA-OFT, π_0, RDT-1B, GR00T N1
subgoals
C Hierarchical reasoning
Subgoals organize a lower-level policy using A or B.
Hi Robot, Gemini Robotics 1.5
Action / chunk
